

Grade: ASB-HyHeet-GP

Manufacturer:	Dixon
Description:	High temperature non-melt graphite grease that does not have a dropping point. It is fortified with a graphite solid film lubricant that provides high temperature lubrication thereby reducing friction and protecting metal surfaces from wear.

PROPERTY	US VALUE		METRIC VALUE	
Lubricating solids	Graphite			
Solids content	4%			
NLGI Grade	2			
Penetration (ASTM D-217)	275			
Dropping point (ASTM D-2265)	None			
Operating Temperatures	-10 to 550	°F	-23 to 288	°C
Color	Black
