

MATERIAL SAFETY DATA SHEET

Product: Ceramacast 675-N
Revision Date: 1/03/2012

1. MATERIAL IDENTIFICATION

Product Name: Ceramacast 675-N

Product Description: Grey Odorless Powder
Product Use: High Temperature Potting Compound

Manufacturer: Aremco Products, Inc.
707-B Executive Blvd.
Valley Cottage, NY 10989

Telephone: 845-268-0039
Emergency Phone: 845-268-0039 or Infotrac (24/7) 800-535-5053

2. COMPOSITION

Ingredient	CAS #	ACGIH TLV (mg/m ³)	OSHA PEL (mg/m ³)
Aluminum Nitride	24304-00-5	10	N/E
Magnesium Oxide	1309-48-4	10	15
Magnesium Phosphate Mono Basic	7757-86-0	15	15

Notes:

1) Exposure values shown for guidance only. Please follow applicable regulations.

3. HAZARDS IDENTIFICATION

Emergency Overview: Grey, odorless powder. May cause moderate irritation to eyes, skin, and digestive tract.

Eye Contact: May cause abrasion and burning.

Skin Contact: May cause moderate irritation.

Inhalation Acute: Airborne dust may cause irritation to upper respiratory track.

Ingestion Acute: May cause irritation to mouth, esophagus, and stomach; aluminum nitride may release ammonia gas.

Chronic Hazards: No known chronic hazards. Not listed on NTP, IARC or OSHA as carcinogen.

HMIS: Health: 1
Flammability: 0
Reactivity: 0
Personal Protection: F

4. FIRST AID MEASURES

Eye Exposure:

Hold eyelids open and flush with a steady, gentle stream of water for at least 15 minutes. Seek immediate medical attention, preferably with an ophthalmologist. If a physician is not immediately available, eye irrigation should be continued for an additional 15 minutes.

Skin Exposure:

Immediately wipe excess material off skin with a dry cloth then wash with plenty of soap and water for at least 5 minutes. See medical attention if irritation develops or persists. Remove contaminated clothing and shoes and clean thoroughly before re-use.

Inhalation:

Remove from immediate source of exposure and assure that victim is breathing. If not breathing, administer cardio-pulmonary resuscitation (CPR). If breathing is difficult, administer oxygen if available. Seek medical attention.

Ingestion:

If swallowed, do not induce vomiting. If victim is conscious and alert, give 1-2 glasses of water to drink. Do not give anything by mouth to an unconscious person. Seek medical attention immediately. Do not leave victim unattended. To prevent aspiration of swallowed product, lay victim on side with head lower than waist. Vomiting may occur spontaneously. If vomiting occurs and the victim is conscious, give water to further dilute the chemical.

Medical Conditions Possibly Aggravated by Exposure:

Inhalation of product may aggravate existing chronic respiratory problems such as asthma, emphysema or bronchitis. Skin contact may aggravate existing skin disease.

5. FIRE FIGHTING MEASURES**Flash Point:**

Not applicable.

Flammable Limits:

This material is non-combustible.

Extinguishing Media:

Avoid water if product is involved in fire. Use foam, CO₂ or dry chemical.

Special Fire Fighting Procedures:

Use full protective clothing and wear positive pressure self-contained breathing apparatus if product is involved in fire.

Unusual Fire and Explosion Hazards:

This material is non-combustible but if product is involved in fire and water or halogen compounds are used as an extinguishing media, rapid decomposition of the aluminum nitride to form ammonia, aluminum halide or nitric halide, may cause explosion.

6. ACCIDENTAL RELEASE MEASURES**Personal Protection:**

Wear goggles, protective clothing, chemical resistant gloves, and rubber boots. Use NIOSH approved respirator to prevent inhalation of dust.

Spill Cleanup:

Sweep material with precaution against breathing dust and dispose in accordance with federal, state and local regulations.

7. HANDLING AND STORAGE**Handling:**

Avoid contact with eyes, skin and clothing. Avoid breathing dust. Keep container closed. Promptly clean residue from closures with cloth dampened with water. Promptly clean up spills.

Storage:

Store in an area that is cool, dry, and well ventilated. Keep containers closed. Store in clean plastic or metal containers.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION**Engineering Controls:**

Use with adequate ventilation; mechanical dust collector is recommended. Keep containers closed. Safety shower and eyewash fountain should be within direct access.

Respiratory Protection:

If exposure limits are exceeded and local ventilation is unavailable, a supplied-air respirator or a self-contained NIOSH-approved dust respirator is recommended.

Skin Protection:

Wear protective clothing and gloves.

Eye Protection:

Wear chemical goggles.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical and chemical here represent typical properties of this product. Contact Technical Sales for exact specifications.

Appearance:

Powder

Color:

Grey

Odor:

Odorless

Specific Gravity, g/cc

2.3 (as mixed with ~17% water by weight)

Water Solubility:

~10%

Melting Point:

Not available

Boiling Point:

Not applicable

Vapor Pressure:

Not applicable

Vapor Density (air=1):

Not applicable

10. STABILITY AND REACTIVITY

Chemical Stability:	This material is stable under all conditions of use and storage. <u>Aluminum nitride</u> does react with water and humidity, which causes hydrolysis and formation of ammonia. Note that the blended ingredients of this formulation are stable when mixed with water and no evolution of ammonia is observed.
Conditions to Avoid:	Keep exposure to dust levels below TLV. Avoid rapid heating of the cement that may cause spalling or eruption due to vaporization of water.
Materials to Avoid:	BrCL3 and BrF3.
Hazardous Decomposition Products:	Possibly ammonia.
Hazardous Polymerization:	Will not occur.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity Data:	Not available
Chronic Toxicity Data:	Not available

12. ECOLOGICAL INFORMATION

Ecotoxicity:	Not tested
Environmental Fate:	Not tested
Physical/Chemical:	Mixes with water

13. DISPOSAL CONSIDERATIONS

Disposal Method:	Dispose in accordance with federal, state and local rules, regulations and laws.
-------------------------	--

14. TRANSPORTATION INFORMATION

DOT UN Status:	The material is not a regulated hazardous material for transportation.
-----------------------	--

15. REGULATORY INFORMATION

U.S. Federal Regulations

CERCLA:	No CERCLA reportable quantity has been established for this material.
----------------	---

TSCA:	All ingredients of this material are listed on the TSCA inventory.
--------------	--

SARA Title III

Sections 302, 304, 313:	This product does not contain any substances reportable under these sections.
--------------------------------	---

Sections 311, 312:

Hazard Classes	Yes/No
Fire Hazard	No
Reactivity Hazard	No
Pressure Hazard	No
Immediate Hazard	Yes
Delayed Hazard	No

International Inventory	Status
Canada (DSL)	Yes
Europe (EINECS/ELINCS)	Yes
Australia (AICS)	Yes
Japan (MITI)	Yes
South Korea (KECL)	Yes

16. OTHER INFORMATION

NFPA:	Health:	1
	Flammability:	0
	Reactivity:	0
